

PARTNERS GROUP GLOBAL MULTI-ASSET FUND

Monthly report August 2024

August NAV per unit increased by 0.7%

In August, global markets experienced overall gains, despite initial volatility and significant stock market declines at the start of the month. Following a sharp sell off in equity markets after the publication of a weaker than expected labor market report and unimpressive ISM manufacturing readings, markets subsequently rebounded as later data releases and resilient corporate earnings provided reassurance to investors. We hold the view that the US economy is likely to slow as the labor market normalizes following the tight conditions observed over the past couple of years. Elsewhere, in Europe we now expect only a moderate rebound in growth as consumers remain cautious and the manufacturing sector remains in contractionary territory. Weaker global growth overall should continue to support further inflation moderation which should in turn allow for continued central bank easing. Looking ahead, the still high amounts of dry powder with GPs should help spur increased private market transaction activity, especially as interest rates come down from their peak.

For the month of August, the NAV of Partners Group Global Multi-Asset Fund increased by 0.7%, bringing the returns for the last twelve months to 7.0%. This was attributed to a general valuation uplift across asset classes and strong distribution activity within the Portfolio. Most notably, listed infrastructure and private equity assets were the main performance drivers.

In August 2024, Partners Group's first lien debt financing to Whole Earth Brands was fully repaid. Based in the US, Whole Brands is a leading global manufacturer of natural, plant-based, clean label, and zero or low-calorie sweeteners. Whole Earth Brands' offerings cater to the increasing need from consumers for a wider variety of dietary choices, baking essentials, and taste profiles. The company's brands include Canderel, Equal, Maico, Pure Via, Whole Earth, and Wholesome.

During the month, Partners Group provided additional capital to Axia Women's Health, a US-based integrated women's healthcare platform. The additional investment was part of a wider debt restructuring aimed at right-sizing the company's balance sheet while also ensuring adequate resources to pursue further acquisitions. Meanwhile, Axia is continuously implementing its six-pillar recovery plan that revolves around clinical and risk management, physician recruitment and retention, revenue cycle management, reimbursement and collection, cost reduction, and organic growth initiatives.

Furthermore, Partners Group completed a USD 1.9 billion follow-on investment in EdgeCore Digital Infrastructure, a US-based owner and operator of scalable, cloud-connected hyperscale data centers, to fund the expansion of its existing locations and new campus development. EdgeCore benefits from several thematic tailwinds, including growing demand for data processing and computational storage, driven by the widening adoption of generative AI, 5G technologies and the shift to outsourced cloud services. Since its initial investment in 2022, Partners Group has worked with EdgeCore's management to establish the company as a leading hyperscale data center platform.

This Fund might restrict outflows in the future.

IMPORTANT INFORMATION: We would like to remind investors that redeeming their holdings in the Fund is subject to restrictions as set out in the Fund's constituent documents. Redemptions are generally subject to a maximum per dealing day expressed as a percentage of total units issued. In certain circumstances redemptions may also be suspended.
