PARTNERS GROUP GLOBAL MULTI-ASSET FUND

Monthly report November 2024

November NAV per unit increased by 1.3%

The US economy demonstrates resilience, with no signs of a major slowdown anticipated going into 2025. In Europe, industrial production remains weak as energy-intensive and automotive output continued to struggle despite strong retail sales due to real income gains. Nonetheless, the inflation in Europe and US remains within expectations, leading the European Central Bank and the Fed to implement a 25bps cut in December. Meanwhile, China is prioritizing fiscal stimulus and interest rate cuts to address its economic challenges.

For the month of November, the NAV of Partners Group Global Multi-Asset Fund increased by 1.3%, bringing the returns for the last twelve months to 7.1%. This was attributed to strong distribution activity from the listed private equity and private equity investments. At the same time, the Underlying Fund benefited from net positive revaluations within the listed private equity strategy, mainly from the Financials sector. Notably, Partners Group's recent exit activities such as the IPO of a leading retailer in India, Vishal Mega Mart, and the agreed sale of a leading renewable energy platform in Europe, VSB Group, contributed towards meaningful portfolio write-ups.

Over the reporting period, the Underlying Fund invested additional capital in atNorth, a leading pan Nordic data center platform, to fund the ongoing construction of its data center capacity across the Nordics. atNorth specializes in next generation, high-density, compute-intensive workloads and is well positioned to capitalize on the continued high demand for computing power across the Nordics. Meanwhile, construction progresses on time and on budget.

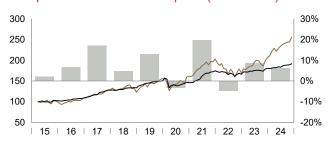

The Underlying Fund's senior secured debt financing provided to Dwyer was fully repaid following the restructuring of the company's existing debt. Dwyer is a US-based designer and manufacturer of highly engineered sensors and instruments for heating, ventilation and air conditioning, as well as process automation industries. Founded in 1931, the company holds over 650 technical patents and has more than 700 employees in six offices globally. Since Partners Group's initial investment in Dwyer in July 2022, the company has continued to grow through strategic acquisitions to enhance its product offerings and strengthen its position in several key markets and regions.

This Fund might restrict outflows in the future.

IMPORTANT INFORMATION: We would like to remind investors that redeeming their holdings in the Fund is subject to restrictions as set out in the Fund's constituent documents. Redemptions are generally subject to a maximum per dealing day expressed as a percentage of total units issued. In certain circumstances redemptions may also be suspended.
